DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Calvert (#5,019,029) in view of Kruit (#5,019,029). Calvert discloses the method comprising a flight bar conveyor system wherein the pitch of flights 12A, 13A equals to the width of erected carton as shown in figure 3. Calvert does not show detached containers that are used in the carton forming operation. Kruit et al show providing a plurality of tubular cartons with an opening end wherein the cartons are attached to one another so that two identical cartons are attached together as shown in figure 4. Kruit et al show flight bars 35 that aid in the carton forming operation. It would have been obvious to one of ordinary skill in the art at the time of the invention to provide Calvert with detachable cartons as taught by Kruit et al to accommodate a plurality of cartons.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
